Since joining Sheppard T. Powell Associates, LLC Mr. Yorgiadis's work has covered a wide spectrum of applied industrial water and wastewater technologies. Recently he has been involved with a number of projects for the Electric Power Research Institute (EPRI). He has served as Project Manager for the production of two EPRI publications - *Guideline Manual On Instrumentation And Control For Fossil Plant Cycle Chemistry* and *Guidelines For Makeup Water Treatment*. He has worked extensively in applied water and wastewater technology for pulp and paper mills, oil refineries and petrochemical plants, fossil electric generating plants, and chemical and metal-finishing operating both in the United States and abroad.

As a member of the Technical Association Of The Pulp And Paper Industry Steam And Power Committee, Mr. Yorgiadis serves on the Water Treatment Subcommittee. He chaired the Ad Hoc Committee investigating the causes of deaerator heater failures. Mr. Yorgiadis is a joint author of "The Future of Saline And Freshwater Resources Of The United States" (The Johns Hopkins University, June, 1964). He coauthored the Corrosion chapter in *Marks' Standard Handbook For Mechanical Engineers*, Ninth Edition, 1987.
